The year is 2070 and Tyler just got his brand new bowl cut to make meme magic real. Decades before, in 2016 comedian Sam Hyde got a Friday night show on Cartoon Network's Adult Swim, Million Dollar Extreme Presents: World Peace. From this TV show, Sam developed a comedy empire that made him the world's most well loved comedian. While this was good for Sam, it was bad for the fans who made sport of crediting him with mass murder.

In the early 21st and late 20th century mass shootings, the filthy lying media would conceal the race of the perpetrator in hopes of defusing populist outrage against Muslims for their murderous and terroristic natures. The Internet began making a game out of fooling liberals and Jews into broadcasting Sam Hyde as the perpetrator by putting it in tweets, thus making fools of those who so desperately wanted these killers to be white men. It was through this that Sam Hyde became infamous. He parleyed that into a television show and became so well recognized nobody could playfully blame shootings on him anymore. Thanks to a vision from worshipping a god named Kek, Tyler knew what must be done to make the Sam Hyde as mass shooter meme come alive again.

Tyler had bought a Saiga 12 shotgun and an aftermarket 20 round drum. He strapped himself with copious extra magazines to deal with any additional problems that might come after the expenditure of 20 rounds. Tyler headed into the ghettos of Queens to make sure the universe felt meme magic in full force for yet another day.

Tyler walked into a synagogue and decided upon his first victim. The temple's single negro, because some kike slut bought her own people's race mixing propaganda. Tyler's pure hatred of niggers got the best of him and he unloaded the first shell into the ape's face. "Everybody on the ground!" screamed Tyler, pointing his shotgun threateningly at the rest of the room. "If you want to live, you'll do exactly what I say with no interference. Nobody try to be a hero. I have a bowl cut."

"Get out your cellphones. Post on Twitter, post on Facebook. I don't care that it's fucking shabbas and your kike demon says you can't push a button, if you want to live get on social media and tell everyone what is happening and that Sam Hyde did this. Sam Hyde. My name is Sam Hyde. That's S-A-M H-Y-D-E. Message your moms. Tell all your friends in journalism, I know you fucking Jews control the fucking media anyways you might as well use it to save your fucking lives right now."

Tyler waited, and sure enough, the Sam Hyde shooting spree began to trend on Twitter. Everybody knew that Sam Hyde had killed again. Tyler could now die happy. "Jews rock!" screamed Tyler as one by one he pulled the trigger of his Saiga after pointing its barrel towards the head of a filthy Jew.

All that remained was a teenaged Jewess that was quivering in fear. Tyler grabbed a tefillin and began furiously beating her with the straps. After rejoicing in her cries of pain, he used the hot flash hider of his Saiga to penetrate her virgin cunt and sear her insides before he began to rape her. Tyler's last moments were spent raping all three orifices of the virgin Jewess before killing her and himself. "I love Jews! Jews rock!" were Tyler's last words.
