

Approximately 3,000 UC Stakeholders Urge UC Adoption of the State Department Definition of Anti-Semitism

YES, the University of California should adopt the U.S. State Department's definition of anti-Semitism to accurately identify and address anti-Semitic behavior on UC campuses.

As direct stakeholders of the University of California, we firmly urge the Board of Regents, who will be discussing this issue, to join three UC student governments and the California Senate in adopting the U.S. State Department's definition of anti-Semitism.

Signed,

A. Fine
